Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 20-22 and 27-31 are rejected under 35 U.S.C. 103(a) as being unpatentable over Goncalves in view of Welter.

Goncalves shows an aerosol dispenser comprising a body 2, a closure 3, flanges 9 and 7 and means for dispensing 13. Goncalves lacks the closure ultrasonically welded to the body. Welter shows two pieces welded ultrasonically to each other to assure a uniform distribution of amplitude of vibration and a resultant uniform bond (see column 1, lines 43-48). It would have been obvious to one of ordinary skill in the art to have modified the Goncalves closure ultrasonically welded to the body as taught by Welter to assure a uniform distribution of amplitude of vibration and a resultant uniform bond.

3. Claims 23- 25, 32-35, 37 and 39 are rejected under 35 U.S.C. § 103 as being unpatentable over Goncalves. in view of Welter as applied to claims 20 above, and further in view of Mascia et al.

Goncalves lacks the flanges rolled and crimped together. Mascia et al. show a closure 16 and body 12 having flat flanges which are rolled and crimped together. It would have been

obvious to one of ordinary skill in the art to have modified the Goncalves flanges with flanges which are rolled and crimped together as taught by Mascia et al. as an alternative equivalent means for attaching a close to the body of an aerosol dispenser.

4. Claim 26, 38 and 40 are rejected under 35 U.S.C. 103(a) as being unpatentable over Goncalves in view of Welter as applied to claim 20 above, and further in view of Ryden.

Goncalves lacks the aerosol dispenser an inhaler. Ryden shows an aerosol dispenser an inhaler containing medicaments to deliver prompt response to patients (see column 1, lines 9-18). It would have been obvious to one of ordinary skill in the art to have modified the Goncalves aerosol dispenser with an inhaler containing a medicament as taught by Ryden to deliver prompt response to patients.

Response to Arguments

5. Applicant's arguments filed 10/12/01 have been fully considered but they are not persuasive.

In response to applicant's arguments against the references individually, one cannot show nonobviousness by attacking references individually where the rejections are based on combinations of references. See *In re Keller*, 642 F.2d 413, 208 USPQ 871 (CCPA 1981); *In re Merck & Co.*, 800 F.2d 1091, 231 USPQ 375 (Fed. Cir. 1986).

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Philippe Derakshani whose telephone number is (703)308-0861.
